Bhavya Priya N

Data Engineer | AWS & Microsoft Certified

+91 9445202321 bhavyapriya127@gmail.com bhavyapriya BhavyapriyaN Portfolio

Professional Summary

AWS Solutions Architect Associate and Microsoft Certified Fabric Data Engineer with nearly 3 years of experience in cloud data engineering. Skilled in Python, SQL, AWS, Power BI, and ETL development, with expertise in FinOps, cloud cost optimization, data governance, and automation. Proven ability to build scalable data pipelines and deliver secure, high-performance analytics solutions.

Professional Experience

Data Engineer Oct. 2023 – Present
Datagrokr Analytics Pvt. Ltd. *Bangalore, India*

- Designed and optimized scalable ETL pipelines using **AWS Redshift, Glue, Athena, S3, Lambda, Step Functions, Batch,** and **DynamoDB**, delivering reliable and efficient cloud data processing.
- Improved the performance of large-scale ETL workloads, reducing **ELB processing time by over 70% (6–7 hours to under 2 hours)** and **EC2 processing to 10–15 minutes**, significantly improving pipeline efficiency.
- Led the migration of the **Chargeback reporting system** from **CUR 1.0** to **CUR 2.0** by redesigning stored procedures, validating financial data, and deploying production-ready enhancements.
- Built and deployed **8+ production-grade Power BI dashboards** for FinOps reporting using dynamic DAX, incremental refresh, drill-through, bookmarks, and performance optimization.
- Designed and implemented a **Cost Anomaly Detection framework** by evaluating Median + MAD, IQR, Percentile, and AWS-native approaches before deploying a production-ready solution with automated cost alerts.
- Developed configurable **budget alert automation** using **AWS Lambda, DynamoDB, and Athena**, enabling automated stakeholder notifications and eliminating manual budget monitoring.
- Built an automated **Oracle Cloud Infrastructure (OCI) Cost & Usage** integration pipeline with **6-hour scheduled refreshes**, handling schema evolution, ETL processing into **Amazon Redshift**, and delivering analytics-ready datasets.
- Developed and deployed **AI-powered MCP Server solutions** integrated with **Amazon Bedrock AgentCore Gateway** and **AWS Lambda**, enabling organization-wide AI-assisted cloud cost optimization and resource management.
- Implemented AWS Lake Formation-based cross-account data sharing and governance using IAM, S3, and YAML-driven infrastructure automation for secure data access across AWS accounts.
- Designed and implemented **cross-region disaster recovery** using **Amazon Redshift DR** and automated **S3 Batch Replication**, improving cloud data resilience and business continuity.
- Collaborated with clients and cross-functional teams to resolve production issues, mentor junior engineers, document technical solutions, and support successful deployments across **Development, QA, and Production** environments.

Process Executive Jul. 2022 – Dec. 2022
Equiniti India *Chennai, India*

- Performed financial reconciliation and data validation using Excel, ensuring operational accuracy.

Technical Skills

Cloud: AWS, Oracle Cloud Infrastructure (OCI), Microsoft Fabric
Data Engineering: Python, SQL, PySpark, ETL, Data Modeling, Data Warehousing, Data Pipelines
Databases: Amazon Redshift, PostgreSQL, MySQL, DynamoDB
Analytics & BI: Power BI (DAX, Data Modeling, Incremental Refresh, Drill-through, Bookmarks)
AI & Automation: LLMs, MCP Servers, AI Agents, RAG, Amazon Bedrock AgentCore Gateway
DevOps & Tools: Git, Docker, Azure DevOps, VS Code

Certifications

AWS Certified Solutions Architect – Associate (SAA-C03) Feb. 2024 – Feb. 2027
Microsoft Certified: Fabric Data Engineer Associate (DP-700) Jun. 2025 – Jun. 2026
Microsoft Certified: Power BI Data Analyst Associate (PL-300) Dec. 2024 – Dec. 2027

Awards

Grok Star, Datagrokr Analytics Pvt. Ltd. | *Outstanding work performance in Q1 2026* Apr. 2026

Education

Great Learning Jan. 2023 – Aug. 2023
Post Graduate Program in Data Science & Engineering

Dr. MGR – Janaki College Jul. 2019 – Jun. 2022
Bachelor of Commerce
